Tigua Business Center

Tigua Business Center Grand Opening

Three hundred and thirty-three years ago the Tigua people settled by the "Loma de Espia," the place where our ancestors and former leaders called tribal members to gather. The Cacique delivered announcements and guidance from the Loma.
Today the Tigua Business Center rests at the site.
Three hundred and thirty-three years later it continues to serve the Tigua people.
Come celebrate the vision of our ancestors and the cultivation of our future.

On May 17, 2012 the Economic Development Department hosted the Tigua Business Center Grand Opening. The Theme was "Party like its 1682. Hosted by Tribal Council special guests and entertainment included:
