Dear Ysleta del Sur Community Members,

My name is Carlos Hisa and I am proud to have been elected to serve as Governor for the Pueblo of Ysleta del Sur for 2015. I am humbled by the opportunity to serve my community in this capacity and take the responsibility of the oath of office seriously. I am committed to the serving the Pueblo with the highest degree of integrity and lead by example.

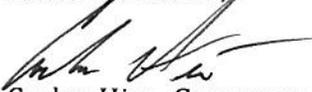

Our pueblo has several challenges that we will be facing in the coming year including the exciting enrollment of people who have always been a part of our Pueblo but will now officially become enrolled as Tigua citizens. With this historic enrollment set to begin on January 7, 2015 our Government will have to be vigilant in working to provide crucial services for the health, education, quality of life, and individual advancement of all of our people. I plan on working hand-and-hand with our Tribal Council and giving our workforce in Government and our Enterprises the support they need to be successful in their service to the Pueblo.

I hope to lead a team that will advance the Sovereignty of the Pueblo through legislative efforts that will secure the Pueblo's future fiscally as well as provide more opportunities for personal and professional advancement for Tribal citizens and their families. I am optimistic that we can make decisions that will keep the Pueblo's long-term needs at the forefront and provide for the future.

Through the process I am committed to transparency in Government in decision making and ensuring that all policies and procedures are uniformed and fair for all giving all members equal access to employment, advancement, education, housing, healthcare, contracting opportunities, and other services provided by the Pueblo Government.

As Pueblo people we must all remember that we all have an obligation to the legacy that runs through our blood in ensuring that we continue and protect the cultural and traditional ceremonies that make us Tigua People. I look forward to serving the needs of the Pueblo and wish everyone and their families may blessings in the coming year.

Hawu Shimwim,

Carlos Hisa, Governor
