# Ysleta del Sur Pueblo

## 2009 Socio-Economic Assessment

Copyright © 2010 by Ysleta del Sur Pueblo. All Rights Reserved.

The Socio-Economic Profile is an ongoing, annual, endeavor aimed at capturing the wide-ranging dimensions of the Tigua community and supporting the Nation Building efforts of the Ysleta del Sur Pueblo. The Pueblo's Economic Development Department analyzes data collected by the Tribal Records Office with the expressed intent of presenting essential information on key issues such as economic growth, economic development, industry sectors, and tribal positioning in Indian Country, regional and national economy. The Ysleta del Sur Pueblo leadership is continually making investments in infrastructure, education and employment opportunities in an effort to improve its socio-economic status and enhance the quality of life for its tribal membership. Over time, statistics collected and analyzed through this process will provide valuable feedback on the rate of progress and the effectiveness of these undertakings. In addition, the data afford a portrait of the continuity of the Tigua community and the families that emanate from a long line of successors to the Tigua way of life.
